

## So Here's to You

**D**            **A**        **D**                    **Bm**        **G**    **D**  
When first we met, complete awkward strangers  
          **F#m**    **Bm**            **Em**        **A**  
We did not know if we could be friends  
          **D**                                    **Bm**            **G**    **D**  
How soon we've come for to know each other  
          **F#m** **Bm**                    **A**        **D**  
And now I know we will meet again

### Chorus:

**A**            **D**                    **Bm**    **G**    **D**  
So here's to you and our time together  
          **F#m**        **Bm**    **Em**        **A**  
I'll share with you a parting glass  
          **D**                                    **Bm**            **G**    **D**  
And I'll bid adieu with some smiles and laughter  
          **F#m** **Bm**                    **A**        **D**  
Our time apart will be short and pass

**A**            **D**                    **Bm**    **G**    **D**  
We've talked of dreams and of new tomorrows  
          **F#m** **Bm**                    **Em**        **A**  
Of yester-day and its dark despair  
          **D**                                    **Bm**            **G**    **D**  
We've had our share of love and sorrow  
          **F#m**    **Bm**        **A**                    **D**  
And now we part as friends who care

### CHORUS

**A**            **D**        **Bm**    **G**    **D**  
A long, long road, it lies before me  
          **F#m**    **Bm**                    **Em**        **A**  
And fate will take me where it will  
          **D**                                    **Bm**    **G**    **D**  
But through the valleys and over mountains  
          **F#m** **Bm**                    **A**                    **D**  
I'll not forget, but remember you still

### CHORUS x 2
